BYRD'S
NEW DIRECTORY
FOR 1910

Will contain additional new features, making it the most valuable and complete book of reference on the market.

Every issue of Byrd's Directory will be an improvement on the one preceding. As the city grows, as the patronage grows—so shall the volume of information grow—reaching a state of perfection impossible to attain in the first issue.

Are You a Judge?

Many people cannot judge the quality of whiskey—they have to take a dealer's word for it, and many dealers buy wherever they can get the cheapest, and immediately begin to sing of the glories of their brands.

It is quite different with us. We make our whiskeys, and we know absolutely that they are right in every respect before we stamp our trade mark and guarantee on them.

If you desire whiskey for medicinal purposes, or want something particularly fine for special occasions, you can be certain of its rare quality, excellent flavor and exquisite aroma if it's Rose's whiskey.

In Distilling

Experienced men are in charge of every stage in the making of our whiskies. Their close attention to details and scrupulous cleanliness insures the even, high grade, fine quality, delicious flavor and exquisite bouquet which distinguishes Rose whiskies from all others.

The "Primitive Method" is the only way we make whiskey—it's the only certain method to get the life and vigor of the grain in the most acceptable form.

Many eminent physicians and specialists insist that the medicinal whiskey for their patients must be Rose whiskey. They know it is pure and carefully aged, and possesses a charming flavor and a tempting bouquet.
